THE CLUB FOR GROWTH FOUNDATION

Club for Growth Foundation is a 501(c)(3) non-profit organization focused on educating the public about the value of free markets, pro-growth policies, and economic prosperity.

State Scorecards are created by the Club for Growth Foundation to educate the public about the voting records of the legislators who serve in state legislatures. It is part of a larger scorecard project that the Club for Growth Foundation has created to educate the public about the economic positions taken by legislators in states across the country.

Our Mission

THE FOUNDATION EDUCATES THE PUBLIC ABOUT PRO-GROWTH POLICIES.

THE FOUNDATION CONDUCTS COMPREHENSIVE EXAMINATIONS OF VOTING RECORDS.

THE FOUNDATION'S GOAL IS TO INFORM THE PUBLIC AND BRING AWARENESS TO LAWMAKERS.

Methodology | New Mexico 2019

Club for Growth Foundation publishes the scorecard study so the public can be educated and informed about the voting record of New Mexico's elected state lawmakers on economic growth issues.

The Foundation conducted a comprehensive examination of each lawmaker's record on votes related to pro-growth policies and computed an Economic Growth Score on a scale of 0 to 100. A score of 100 would indicate the highest support for pro-growth policies.

The Foundation examined legislative votes related to the Foundation's immediate pro-economic growth policy goals, including:

- Reducing or eliminating tax rates and enacting tax reform
- Limited government through limited spending and budget reform
- Regulatory reform and deregulation
- Ending abusive lawsuits through medical malpractice and tort reform
- Expanding school choice
- Implementing Term Limits

Not all of these policy goals will come up for a vote in each legislative session.

The Foundation also examined votes on bills that would directly harm these goals.

This scorecard is based on selected votes of importance to the Foundation, and does not include the complete voting record of any legislator. There are inherent limitations in judging the overall qualifications of any legislator based on a selected voting record, and the Foundation does not endorse or oppose any legislator for public office.

LEGISLATIVE ACTIONS CONSIDERED IN NEW MEXICO IN 2019

The Foundation's study examined over 900 floor votes and, in the end, included 22 votes in both the New Mexico House and the New Mexico Senate.

COMPUTATION

Scores are computed on a scale of 0 to 100. Each vote or action in the rating is assigned a certain number of points depending on its relative importance. If a lawmaker casts a correct vote, the scorecard will denote it with that number. If a lawmaker casts an incorrect vote, the scorecard will denote that vote with a hyphen (-). Absences are not counted – signified as an "X" on the scorecard – though the Foundation reserves the right to do so if, in its judgment, a lawmaker's position was otherwise discernible. If a lawmaker was not officially sworn into office at the time of a vote, the scorecard will denote that vote with an "I".

To provide some additional guidance concerning the scores, each lawmaker was ranked. Lawmakers with 0% scores are, by default, ranked #69 in the House and #42 in the Senate. If applicable, the study also records a "Lifetime Score" for each lawmaker. This is a simple average of the scores from 2019 and all previous years where the lawmaker earned a score.

In some cases, a lawmaker was not present for enough votes for a meaningful score or ranking to be computed. In such cases "n.a." for not applicable appears. In computing lifetime scores, years with "n.a." listed instead of a score are not included. Comparing such scores to other members without "n.a." years may be misleading.

ADDITIONAL FACTORS

A study of roll call votes on the floor of the New Mexico House and New Mexico Senate and legislative actions is just that. It cannot account for a lawmaker's work in committee, advocacy in his party's caucus meetings, and effectiveness as a leader in advocating pro-growth policies.

"Through the release of this series, the Club for Growth Foundation is looking at how state legislatures perform in terms of pro-growth policies. We believe that this scorecard will help inform citizens and entrepreneurs about who supports the policies that are good for economic prosperity."

- DAVID McINTOSH
PRESIDENT, CLUB FOR GROWTH FOUNDATION
