

2024

Missouri State Legislative Scorecard

See how Members of Missouri's General Assembly are voting on economic growth issues.

Club for Growth Foundation is a 501(c)(3) non-profit organization focused on educating the public about the value of free markets, pro-growth policies, and economic prosperity.

State Scorecards are created by the Club for Growth Foundation to educate the public about the voting records of the legislators who serve in state legislatures. This is part of a larger scorecard project that the Club for Growth Foundation has created to educate the public about the economic positions taken by legislators in states across the country.

Our Mission

THE FOUNDATION EDUCATES THE PUBLIC ABOUT PRO-GROWTH POLICIES.

THE FOUNDATION CONDUCTS COMPREHENSIVE EXAMINATIONS OF VOTING RECORDS.

THE FOUNDATION'S GOAL IS TO INFORM THE PUBLIC AND BRING AWARENESS TO LAWMAKERS.

Methodology | Missouri 2024

Club for Growth Foundation publishes the scorecard study so the public can monitor the actions and the voting behavior of Missouri’s elected state lawmakers on economic growth issues.

The Foundation conducted a comprehensive examination of each lawmaker’s record on votes related to pro-growth policies and computed an Economic Growth Score on a scale of 0 to 100. A score of 100 indicates the highest support for pro-growth policies.

The Foundation examines legislative votes related to the Club’s immediate pro-economic growth policy goals, including:

- Reducing or eliminating tax rates and enacting tax reform
- Limited government through limited spending and budget reform
- Regulatory reform and deregulation
- Ending abusive lawsuits through medical malpractice and tort reform
- Expanding school choice
- Implementing term limits

Not all of these policy goals will come up for a vote in each legislative session.

The Foundation also examines votes on bills that would directly harm these goals.

This scorecard is based on selected votes of importance to the Foundation, and does not include the complete voting record of any legislator. There are inherent limitations in judging the overall qualifications of any legislator based on a selected voting record, and the Foundation does not endorse or oppose any legislator for public office.

LEGISLATIVE ACTIONS CONSIDERED IN MISSOURI IN 2024

The Foundation’s study examined 354 floor votes and, in the end, included 19 Missouri House votes and 8 Missouri Senate votes.

COMPUTATION

Scores are computed on a scale of 0 to 100. Each vote or action in the rating is assigned a certain number of points depending on its relative importance. If a lawmaker casts a correct vote, the scorecard will denote it with that number. If a lawmaker casts an incorrect vote, the scorecard will denote that vote with a hyphen (-). Absences are not counted – signified as an “X” on the scorecard – though the Foundation reserves the right to do so if, in its judgment, a lawmaker’s position was otherwise discernible. If a lawmaker was not officially sworn into office at the time of a vote, the scorecard will denote that vote with an “I”.

To provide some additional guidance concerning the scores, each lawmaker was ranked. Aside from ties, lawmakers with 0% scores are, by default, ranked #163 in the

House and #34 in the Senate if all lawmakers are present. Scores and ranks cannot be directly compared between the House and Senate, as different votes were taken in each chamber. If applicable, the study also records a “Lifetime Score” for each lawmaker. This is a simple average of the scores from 2024 and all previous years where the lawmaker earned a score.

In some cases, a lawmaker was not present for enough votes for a meaningful score or ranking to be computed. In such cases, “n.a.” for “not applicable” appears. In computing lifetime scores, years with “n.a.” listed instead of a score are not included. Comparing such scores to other members without “n.a.” years may be misleading.

ADDITIONAL FACTORS

A study of roll call votes on the floor of the Missouri House and Missouri Senate and legislative actions is just that. It cannot account for a lawmaker’s work in committee, advocacy in his party’s caucus meetings, and effectiveness as a leader in advocating pro-growth policies.

“Through the release of this series, the Club for Growth Foundation is looking at how state legislatures perform in terms of pro-growth policies. We believe that this scorecard will help inform citizens and entrepreneurs about who supports the policies that are good for economic prosperity.”

- DAVID McINTOSH
PRESIDENT, CLUB FOR GROWTH FOUNDATION

Missouri 2024 | Senate Vote Descriptions

HB 2002

MISSED OPPORTUNITY EDUCATION APPROPRIATIONS (CFGF OPPOSES)

This bill appropriates some \$8.7 billion for the Department of Elementary and Secondary Education in the Missouri FY25 state budget. This is a topline decrease of 11.2 percent from FY24 levels, however, that is due almost exclusively to reduced federal funds from emergency COVID spending. Missouri general fund spending slightly decreased while alternative fund spending increased by 12.5 percent over FY24 levels. Specifically, the legislation includes \$56 million for an expanded government pre-K program, locks in taxpayer funding for DEI programs in education agencies, and once again implements a \$40,000 across-the-board meritless minimum teacher pay floor. The Missouri House passed the bill, 114-12, on May 10, 2024. The Missouri Senate passed it, 25-8, on May 9, 2024.

HB 2007

BIG SPENDING ECONOMIC CRONYISM PACKAGE (CFGF OPPOSES)

This bill allocates funding for the Department of Economic Development, Department of Commerce, and Department of Labor. Specifically, the legislation appropriates \$2.2 billion for crony economic development programs that pick winners and losers, rewarding government-preferred entities with taxpayer funding at the expense of hardworking Missourians. This is an astounding 162 percent increase over FY24 levels. The bill contains a \$1.4 billion year-over-year increase in crony economic development spending from federal funds, an increase of 242 percent. Missouri's current liabilities exceed \$17 billion with hardworking Missourians facing continued pressure from high costs and persistent inflation. Lawmakers should not raise spending baselines under the false belief that federal money is "free" which will inevitably result in

future tax and liability burdens on taxpayers. The Missouri House passed the bill, 91-32, on May 10, 2024. The Missouri Senate passed it, 25-8, on May 9, 2024.

HB 2011

MISSED OPPORTUNITY MEDICAID APPROPRIATIONS (CFGF OPPOSES)

This bill appropriates \$15.2 billion to the Department of Social Services in the Missouri FY25 state budget. While the overall topline spending decreased, state General Fund spending for the department increased by 7.7 percent and federal spending increased by 6.6 percent year-over-year, coming just one year after the legislature passed a 12 percent increase for the department and two years after a 35 percent increase. Additionally, the bill perpetuates the state's costly and harmful Medicaid expansion with no efforts to rein in a program that has devoured state budgets and resulted in poorer health outcomes for its

recipients. The Missouri House passed the bill, 88-43, on May 10, 2024. The Missouri Senate passed it, 24-9, on May 9, 2024.

SB 727

SIGNIFICANT SCHOOL CHOICE EXPANSION (CFGF SUPPORTS)

This bill significantly empowers parents and students in K-12 programs. Specifically, the legislation greatly increases eligibility for the Missouri Empowerment Scholarship program for low-income students and those with disabilities, erasing geographic restrictions and raising the income limit from 200 percent of the federal poverty level to 300 percent. Furthermore, available funds for scholarships increased from \$50 million to \$75 million with adjusted per-pupil allocations for eligible education expenses. While the bill increases the teacher pay floor to \$40,000 in an across-the-board meritless pay raise, it overall substantially improves an existing school choice program. Missouri remains one of the better states when it comes to school choice and further

empowering parents, not government schools, is the best way to provide quality education for students stuck in failing school systems. The Missouri House passed the bill, 82-69, on April 18, 2024. The Missouri Senate passed it, 19-10, on March 14, 2024.

SB 735

EXPANDED SOUND MONEY PROTECTIONS (CFGF SUPPORTS)

This bill makes multiple changes to the state's legal tender law and taxation of precious metals. Specifically, the legislation exempts from the state income tax the capital gain on the sale or exchange of gold or silver. Additionally, the bill requires specie legal tender and electronic currency to be accepted as legal tender to pay debts in Missouri and prohibits state agencies from enforcing any federal statutes or regulations infringing on the rights of Missourians to use specific legal tender or electronic currency. This bill helps ensure gold and silver can serve as an alternative competitive currency to the dollar, as well as

provide taxpayers some protection during a significant inflation or hyperinflationary event. The Missouri Senate passed the bill, 21-10, on April 29, 2024. The Missouri House did not take it up.

SB 745

SIGNIFICANT UNEMPLOYMENT INSURANCE REFORMS (CFGF SUPPORTS)

This bill implements reforms in the state's unemployment insurance program. Specifically, the legislation pegs the number of weeks individuals may receive benefits to the state's unemployment rate, limiting benefits to a new lowered minimum of 8 weeks and the existing maximum of 20 weeks. Estimates suggest these changes could save taxpayers \$80 million in the next fiscal year. Policy reforms encouraging re-employment lead to a healthier and more productive workforce while serving as a foundation for sustainable growth. The Missouri Senate passed the bill, 22-8, on February 21, 2024. The Missouri House did not take it up.

SB 802

CRONY CORPORATE TAX HANDOUT

(CFGF OPPOSES)

This bill creates a new crony economic development tax credit. Specifically, the legislation creates a \$16 million investment fund that provides tax credits equal to 15 percent of an entity's total rural development investment. Eligibility for the credits requires an applicant to have spent at least \$100 million in nonpublic companies in places with fewer than 50,000 residents or \$30 million in investments in nonpublic companies in Missouri. Only 10 businesses in Missouri meet the eligibility criteria. This is a flagrant taxpayer-funded handout to well-connected corporate interests at the expense of hardworking families struggling to make ends meet. The Missouri House passed the bill, 84-51, on May 17, 2024. The Missouri Senate passed it, 19-14, on March 7, 2024.

SB 895

EVICITION MORATORIUM PROHIBITIONS

(CFGF SUPPORTS)

This bill preempts municipalities from imposing onerous regulations on property owners. Specifically, the legislation bars counties, cities, and other political subdivisions of the state from implementing eviction moratoriums on landlords and property owners unless specifically authorized by state law. Such moratoriums are a violation of the fundamental rights of property owners, constitute clear government takings, discourage capital investment in new rental properties, diminish property values, and distort real estate markets by artificially imposing a freeze on supply. The Missouri House passed the bill, 104-16, on May 17, 2024. The Missouri Senate passed it, 25-8, on March 7, 2024.

Missouri 2024 | House Vote Descriptions

HB 1483

CRONY SPORTS TAX CREDIT HANDOUT

(CFGF OPPOSES)

This bill expands a sports and events tax credit program. Specifically, the legislation extends the existing refundable credit from \$5 per ticket sold to \$6 per ticket sold and from \$10 per registered individual to \$12 per registered individual. Furthermore, the bill doubles the existing spending cap on the program from \$3 million to \$6 million, earmarks \$5.5 million in taxpayer-funded handouts to recipients in Kansas City and St. Louis, and extends the program through 2031. This program is little more than a direct government-imposed wealth transfer from hardworking Missourians to large sports franchises, urban sporting event centers, and their well-connected sponsors. The Missouri House passed the bill, 94-50, on March 27, 2024. The Missouri Senate did not take it up.

HB 1486

MASSIVE GOVERNMENT PRE-K EXPANSION

(CFGF OPPOSES)

This bill significantly expands government pre-K programs in Missouri. Specifically, the legislation expands pre-K to all families with 3 to 5-year-olds who qualify for free and reduced-price lunch. Currently, the state spends roughly \$23 million per year for pre-K for 4-year-olds and above. Depending on the participation rate for this new program, the additional annual cost is estimated to range between \$20 million and \$204 million with initial appropriations coming in at \$55 million. Empirical studies analyzing similar government pre-K programs like Head Start have shown no impact on student academic performance and in many instances correspond with negative behavioral outcomes. Lawmakers should be focused on empowering parents and school choice, not expanding the reach of failing government schools. The Missouri House passed the bill, 102-43, on March 7, 2024. The Missouri Senate did not take it up.

HB 1488

MASSIVE CHILDCARE WELFARE EXPANSION

(CFGF OPPOSES)

This bill creates three new taxpayer-funded tax credit programs. Specifically, the legislation authorizes the Child Care Contribution Tax Credit equal to \$200,000 per year per taxpayer for contributing to qualified providers, an employer-provided Child Care Assistance Tax Credit, and a Child Care Providers Tax Credit in a massive \$70 million per year distortionary tax scheme that creates a new permanent state welfare program. Furthermore, depending on the employer and business, participating employers could pass on the costs of covering this new benefit to consumers and customers with commensurate employee wage reductions. The Missouri House passed the bill, 113-39, on February 8, 2024. The Missouri Senate did not take it up.

Missouri 2024 | House Vote Descriptions

HB 1753

GRID RELIABILITY PROTECTIONS

(CFGF SUPPORTS)

This bill implements new criteria to protect the electric grid and insulate hardworking families from green energy price hikes. Specifically, the legislation creates specific criteria before an electric generating unit can be retired. These criteria include no measurable reduction in grid reliability, sustained reserve capacity in both summer and winter months, and a requirement for the replacement facility to be operational within six months. These safeguards will further protect Missourians from green energy initiatives intended to force power grids to rely on unaffordable and unreliable solar and wind boondoggles. The Missouri House passed the bill, 114-27, on April 15, 2024. The Missouri Senate did not take it up.

HB 1795

MODEST YOUTH EMPLOYMENT

DEREGULATION

(CFGF SUPPORTS)

This bill makes changes regarding youth

employment participation in the entertainment industry. Specifically, the legislation prohibits political subdivisions of the state from requiring work permits for 18-year-olds and under to work in selected entertainment venues such as movies, television shows, athletic events, rodeos, and musical performances. Additionally, the bill implements parental authorization requirements for youth employment at these specified entertainment venues. As hardworking families and households face persistent inflation and increased costs, providing new opportunities to supplement income is an important pro-growth and pro-family policy that will help offset the failed tax-and-spend policies of the government. The Missouri House passed the bill, 105-41, on May 7, 2024. The Missouri Senate did not take it up.

HB 1936

CRONY HISTORIC PRESERVATION CREDIT

EXPANSION

(CFGF OPPOSES)

This bill expands the Historic Preservation Tax Credit program. Specifically, the legislation

indexes 25 percent of the \$120 million program to CPI, ensuring a constant increase in the annual programmatic cap. Additionally, the bill increases the amount each homeowner can claim from \$275,000 to \$475,000 with the new threshold pegged to inflation and allows structures over 1 million square feet to qualify. By pegging parts of this crony program to inflation, lawmakers are in effect creating a permanently expanded tax carveout with fake spending caps. Lawmakers should not create new distortions in the tax code that benefit well-connected interests at the expense of hardworking families and households. The Missouri House passed the bill, 108-38, on May 8, 2024. The Missouri Senate did not take it up.

HB 1960

ECONOMIC REGULATORY SANDBOX

PROGRAM

(CFGF SUPPORTS)

This bill creates a process and criteria by which some regulations may be waived for two years to help encourage Missouri businesses to operate with a freer hand to innovate on

Missouri 2024 | House Vote Descriptions

product development. Regulatory sandbox approaches are a relatively new initiative that rolls back or waives various regulations—usually for a temporary period in specific areas—to allow businesses to operate without the burden of excessive, cost-driving regulations to spur new ideas and innovation. This approach also allows lawmakers to ascertain what regulations are necessary or perhaps unnecessary and in need of permanent repeal. The Missouri House passed the bill, 131-16, on February 8, 2024. The Missouri Senate passed a different bill.

HB 2002

MISSED OPPORTUNITY EDUCATION APPROPRIATIONS (CFGF OPPOSES)

This bill appropriates some \$8.7 billion for the Department of Elementary and Secondary Education in the Missouri FY25 state budget. This is a topline decrease of 11.2 percent from FY24 levels, however, that is due almost exclusively to reduced federal funds from emergency COVID spending. Missouri general fund spending slightly decreased while alternative fund spending

increased by 12.5 percent over FY24 levels. Specifically, the legislation includes \$56 million for an expanded government pre-K program, locks in taxpayer funding for DEI programs in education agencies, and once again implements a \$40,000 across-the-board meritless minimum teacher pay floor. The Missouri House passed the bill, 114-12, on May 10, 2024. The Missouri Senate passed it, 25-8, on May 9, 2024.

HB 2007

BIG SPENDING ECONOMIC CRONYISM PACKAGE (CFGF OPPOSES)

This bill allocates funding for the Department of Economic Development, Department of Commerce, and Department of Labor. Specifically, the legislation appropriates \$2.2 billion for crony economic development programs that pick winners and losers, rewarding government-preferred entities with taxpayer funding at the expense of hardworking Missourians. This is an astounding 162 percent increase over FY24 levels. The bill contains a \$1.4 billion year-over-year increase in crony economic development

spending from federal funds, an increase of 242 percent. Missouri’s current liabilities exceed \$17 billion with hardworking Missourians facing continued pressure from high costs and persistent inflation. Lawmakers should not raise spending baselines under the false belief that federal money is “free” which will inevitably result in future tax and liability burdens on taxpayers. The Missouri House passed the bill, 91-32, on May 10, 2024. The Missouri Senate passed it, 25-8, on May 9, 2024.

HB 2011

MISSED OPPORTUNITY MEDICAID APPROPRIATIONS (CFGF OPPOSES)

This bill appropriates \$15.2 billion to the Department of Social Services in the Missouri FY25 state budget. While the overall topline spending decreased, state General Fund spending for the department increased by 7.7 percent and federal spending increased by 6.6 percent year-over-year, coming just one year after the legislature passed a 12 percent increase for the department and two years after a 35 percent

increase. Additionally, the bill perpetuates the state’s costly and harmful Medicaid expansion with no efforts to rein in a program that has devoured state budgets and resulted in poorer health outcomes for its recipients. The Missouri House passed the bill, 88-43, on May 10, 2024. The Missouri Senate passed it, 24-9, on May 9, 2024.

HB 2082

EXPANDED HEALTH SHARING ASSOCIATIONS (CFGF SUPPORTS)

This bill authorizes new health-sharing plans. Specifically, the legislation empowers the state farm bureau to create health benefit plans that exist outside the onerous, costly, and low-quality Obamacare exchange plans. Sharing associations operate like community-run risk pools where members help one another pay for health care needs, defraying the costs imposed by centrally-planned government regulations and edicts. While these sharing plans are only available to farm bureau members, such policies are innovative market-oriented ways to circumvent

the big government and big insurer-created disaster that is modern “health insurance.” The Missouri House passed the bill, 104-21, on March 27, 2024. The Missouri Senate did not take it up.

HB 2274

PRO-GROWTH CORPORATE INCOME TAX ELIMINATION (CFGF SUPPORTS)

This bill phases out the state’s corporate income tax over the next four years. Specifically, the legislation ratchets the state’s 4 percent corporate income tax rate down each year until it is zeroed out completely in 2028 and eliminates all tax credits associated with the corporate income tax rate. Estimates suggest eliminating the corporate tax rate would save entrepreneurs and small business owners in Missouri more than \$2.6 billion over the next four years. This is a substantial pro-growth policy that makes Missouri the seventh state without a corporate income tax. The Missouri House passed the bill, 100-50, on March 27, 2024. The Missouri Senate did not take it up.

HB 2385

PROPERTY OWNER PROTECTION MEASURE (CFGF SUPPORTS)

This bill preempts municipalities from imposing restrictions on property owners. Specifically, the legislation prohibits political subdivisions from enacting any ordinances or resolutions that bar landlords from considering sources of income when making rental or lease determinations—specifically for prospective tenants whose income includes federal housing welfare payments. This bill provides property owners with the ability to reject applicants whose income relies on Section 8 housing welfare, thereby protecting landlords from being forced to engage in financially risky lease agreements. The Missouri House passed the bill, 103-33, on March 7, 2024. The Missouri Senate did not take it up.

HB 2619

PROHIBITING TAXPAYER FUNDING FOR DEI (CFGF SUPPORTS)

This bill prohibits state agencies from expending any taxpayer funds on Diversity, Equity, and Inclusion (DEI) initiatives and programs.

ABOUT THE FOUNDATION

METHODOLOGY 2024 MISSOURI

MISSOURI SENATE SNAPSHOT

MISSOURI SENATE VOTES

MISSOURI SENATE VOTE DESCRIPTIONS

MISSOURI HOUSE SNAPSHOT

MISSOURI HOUSE VOTES

MISSOURI HOUSE VOTE DESCRIPTIONS

Missouri 2024 | House Vote Descriptions

Specifically, the legislation prohibits state entities that receive taxpayer money from funding or operating woke DEI offices and programs that promote race essentialism and forbids agencies from mandating such practices as a prerequisite for receiving taxpayer-funded contracts. Hardworking Missourians should not be compelled to fund a bureaucracy that engages in explicit discrimination and espouses neo-Marxist concepts. The Missouri House passed the bill, 102-47, on May 8, 2024. The Missouri Senate did not take it up.

HB 2719 **RESURRECTED CRONY TOURISM FUND** **(CFGF OPPOSES)**

This bill resurrects an expired government fund. Specifically, the legislation resurrects the Division of Tourism Supplemental Revenue Fund, which expired in 2020, for various taxpayer-funded marketing campaigns to promote tourism in Missouri. The estimated cost to taxpayers remains to be seen due to programmatic funding being a mixture of appropriations, grants, and gifts. However, the three-year average for the fund's

last three fiscal years of operation is roughly \$21 million per year. Lawmakers should not resurrect expired programs that benefit well-connected interests with special taxpayer-conferred benefits for activities better left to the private sector. The Missouri House passed the bill, 128-16, on April 10, 2024. The Missouri Senate did not take it up.

HJR 78 **MODEST PROPERTY TAX INCREASE** **PROTECTION** **(CFGF SUPPORTS)**

This resolution implements modest protections against tax increases for homeowners. Specifically, the legislation provides for a ballot referendum to modify the Missouri constitution to ensure the true value of a property is based on the most recent previous assessment and that valuations of property cannot exceed inflation or 2 percent, whichever value is less. This resolution effectively caps property tax increases for residential property owners. The Missouri House passed the resolution, 104-19, on March 28, 2024. The Missouri Senate did not take it up.

SB 727 **SIGNIFICANT SCHOOL CHOICE EXPANSION** **(CFGF SUPPORTS)**

This bill significantly empowers parents and students in K-12 programs. Specifically, the legislation greatly increases eligibility for the Missouri Empowerment Scholarship program for low-income students and those with disabilities, erasing geographic restrictions and raising the income limit from 200 percent of the federal poverty level to 300 percent. Furthermore, available funds for scholarships increased from \$50 million to \$75 million with adjusted per-pupil allocations for eligible education expenses. While the bill increases the teacher pay floor to \$40,000 in an across-the-board meritless pay raise, it overall substantially improves an existing school choice program. Missouri remains one of the better states when it comes to school choice and further empowering parents, not government schools, is the best way to provide quality education for students stuck in failing school systems. The Missouri House passed the bill, 82-69, on April 18, 2024. The Missouri Senate passed it, 19-10, on March 14, 2024.

SB 802

CRONY CORPORATE TAX HANDOUT

(CFGF OPPOSES)

This bill creates a new crony economic development tax credit. Specifically, the legislation creates a \$16 million investment fund that provides tax credits equal to 15 percent of an entity’s total rural development investment. Eligibility for the credits requires an applicant to have spent at least \$100 million in nonpublic companies in places with fewer than 50,000 residents or \$30 million in investments in nonpublic companies in Missouri. Only 10 businesses in Missouri meet the eligibility criteria. This is a flagrant taxpayer-funded handout to well-connected corporate interests at the expense of hardworking families struggling to make ends meet. The Missouri House passed the bill, 84-51, on May 17, 2024. The Missouri Senate passed it, 19-14, on March 7, 2024.

SB 895

EVICITION MORATORIUM PROHIBITIONS

(CFGF SUPPORTS)

This bill preempts municipalities from imposing onerous regulations on property owners. Specifically, the legislation bars counties, cities, and other political subdivisions of the state from implementing eviction moratoriums on landlords and property owners unless specifically authorized by state law. Such moratoriums are a violation of the fundamental rights of property owners, constitute clear government takings, discourage capital investment in new rental properties, diminish property values, and distort real estate markets by artificially imposing a freeze on supply. The Missouri House passed the bill, 104-16, on May 17, 2024. The Missouri Senate passed it, 25-8, on March 7, 2024.
