FOUNDATION

2025

Florida State Legislative Scorecard

See how Members of Florida's State Legislature
are voting on economic growth issues.

Club for Growth Foundation is a 501(c)(3) non-profit organization focused on educating the public about the value of free markets, pro-growth policies, and economic prosperity.

State Scorecards are created by the Club for Growth Foundation to educate the public about the voting records of the legislators who serve in state legislatures. This is part of a larger scorecard project that the Club for Growth Foundation has created to educate the public about the economic positions taken by legislators in states across the country.

Our Mission

THE FOUNDATION EDUCATES THE PUBLIC ABOUT PRO-GROWTH POLICIES.

THE FOUNDATION CONDUCTS COMPREHENSIVE EXAMINATIONS OF VOTING RECORDS.

THE FOUNDATION'S GOAL IS TO INFORM THE PUBLIC AND BRING AWARENESS TO LAWMAKERS.

Methodology | Florida 2025

Club for Growth Foundation publishes the scorecard study so the public can monitor the actions and the voting behavior of Florida’s elected state lawmakers on economic growth issues.

The Foundation conducted a comprehensive examination of each lawmaker’s record on votes related to pro-growth policies and computed an Economic Growth Score on a scale of 0 to 100. A score of 100 indicates the highest support for pro-growth policies.

The Foundation examines legislative votes related to the Foundation’s immediate pro-economic growth policy goals, including:

- Reducing or eliminating tax rates and enacting tax reform
- Limited government through limited spending and budget reform
- Regulatory reform and deregulation
- Ending abusive lawsuits through medical malpractice and tort reform
- Expanding school choice
- Implementing term limits

Not all of these policy goals will come up for a vote in each legislative session.

The Foundation also examines votes on bills that would directly harm these goals.

This scorecard is based on selected votes of importance to the Foundation, and does not include the complete voting record of any legislator. There are inherent limitations in judging the overall qualifications of any legislator based on a selected voting record, and the Foundation does not endorse or oppose any legislator for public office.

FLORIDA HOUSE VOTE DESCRIPTIONS

LEGISLATIVE ACTIONS CONSIDERED IN FLORIDA IN 2025

The Foundation’s study examined over 900 floor votes and, in the end, included 13 Florida House votes and 10 Florida Senate votes.

COMPUTATION

Scores are computed on a scale of 0 to 100. Each vote or action in the rating is assigned a certain number of points depending on its relative importance. If a lawmaker casts a correct vote, the scorecard will denote it with that number. If a lawmaker casts an incorrect vote, the scorecard will denote that vote with a hyphen (-). Absences are not counted - signified as an “X” on the scorecard - though the Foundation reserves the right to do so if, in its judgment, a lawmaker’s position was otherwise discernible. If a lawmaker was not officially sworn into office at the time of a vote, the scorecard will denote that vote with an “I”.

To provide some additional guidance concerning the scores, each lawmaker was ranked. Aside from ties, lawmakers with 0% scores are, by default, ranked #120 in the

House and #40 in the Senate if all lawmakers are present. Scores and ranks cannot be directly compared between the House and Senate, as different votes were taken in each chamber. If applicable, the study also records a “Lifetime Score” for each lawmaker. This is a simple average of the scores from 2025 and all previous years where the lawmaker earned a score.

In some cases, a lawmaker was not present for enough votes for a meaningful score or ranking to be computed. In such cases, “n.a.” for “not applicable” appears. In computing lifetime scores, years with “n.a.” listed instead of a score are not included. Comparing such scores to other members without “n.a.” years may be misleading.

ADDITIONAL FACTORS

A study of roll call votes on the floor of the Florida House and Florida Senate and legislative actions is just that. It cannot account for a lawmaker’s work in committee, advocacy in his party’s caucus meetings, and effectiveness as a leader in advocating pro-growth policies.

“Through the release of this series, the Club for Growth Foundation is looking at how state legislatures perform in terms of pro-growth policies. We believe that this scorecard will help inform citizens and entrepreneurs about who supports the policies that are good for economic prosperity.”

- DAVID McINTOSH
PRESIDENT, CLUB FOR GROWTH FOUNDATION

Florida 2025 | Senate Vote Descriptions

HB 999

SOUND MONEY PROTECTIONS (CFGF SUPPORTS)

This bill expands avenues for citizens to protect themselves from a devalued dollar. Specifically, the legislation codifies in statutory language that gold and silver are legitimate legal tender in the state of Florida. It also exempts gold and silver from sales taxes, allows government entities to accept such tender electronically, and permits the use of gold and silver in the payment of debts. This bill helps ensure gold and silver can serve as an alternative competitive currency to the dollar, as well as provide taxpayers with some protection during a significant inflation or hyperinflationary event. The Florida House passed the bill, 113-0, on April 30, 2025. The Florida Senate passed it, 38-0, on April 29, 2025.

HB 1137

EXPANDED APPLIANCE DEREGULATION (CFGF SUPPORTS)

This bill expands existing preemptions concerning appliances and energy source regulations. Specifically, the legislation builds off previous legislative efforts to preemptively prohibit boards, agencies, commissions, and other extensions of municipalities from enacting restrictions on the use of appliances powered by non-green energy sources. Additionally, the bill prohibits rural electric cooperatives from taking actions that restrict or prohibit the use of reliable energy sources. Hardworking Floridians deserve protection from progressive policies that drive up energy costs and degrade the efficacy of household appliances. The Florida House passed the bill, 109-5, on April 23, 2025. The Florida Senate passed it, 36-0, on April 28, 2025.

HB 5017

DEBT REDUCTION PROGRAM (CFGF SUPPORTS)

This bill creates a new program to expedite the retirement of Florida's tax-supported debt. Specifically, the legislation establishes the Debt Reduction Program within the State Board of Administration to accelerate the retirement of bonds prior to maturity. Additionally, the bill directs \$250 million in annual transfers from the General Fund to the new debt reduction program, with unexpended funds reverting back at the end of the fiscal year. Estimates vary on the overall fiscal impact; however, the early retirement of taxpayer-financed bonds has the potential to provide significant savings for the state and hardworking Floridians. This is an encouraging development and shows that lawmakers take seriously their responsibility to protect families from the destructive impact of government debt. The Florida House passed the bill, 101-0, on June 16, 2025. The Florida Senate passed it, 34-0, on the same day.

FLORIDA HOUSE VOTES

FLORIDA HOUSE VOTE DESCRIPTIONS

Florida 2025 | Senate Vote Descriptions

HB 7031

SIGNIFICANT TAX REFORMS

(CFGF SUPPORTS)

This bill implements significant tax changes. Specifically, the legislation repeals the 2 percent business rent tax, repeals the aviation fuel tax, delays a looming tax on natural gas fuel, and implements a slew of sales tax holidays for school and disaster preparedness supplies. While the bill extends a crony tax handout for data center development and continues misguided government housing tax exemptions, estimates suggest the overall provisions within the bill will save over \$2 billion in FY2025-26 to provide significant tax relief and foster economic growth. The Florida House passed the bill, 93-7, on June 16, 2025. The Florida Senate passed it, 32-2, on the same day.

SB 480

EXPANDED HEALTH SHARING ASSOCIATIONS

(CFGF SUPPORTS)

This bill authorizes new health-sharing plans. Specifically, the legislation empowers non-

profit agriculture entities to create health benefit plans that exist outside the onerous, costly, and low-quality Obamacare exchange plans. Sharing associations operate like community-run risk pools where members help one another pay for health care needs, defraying the costs imposed by centrally planned government regulations and edicts. While these sharing plans are only available to nonprofit agriculture organizations' members, such policies are innovative market-oriented ways to circumvent the big government and big insurer-created disaster that is modern "health insurance." The Florida House passed the bill, 114-0, on April 29, 2025. The Florida Senate passed it, 32-4, on April 3, 2025.

SB 600

NEW CRONY MANUFACTURING GRANT PROGRAM

(CFGF OPPOSES)

This bill creates a new corporate welfare program. Specifically, the legislation creates a new manufacturing czar within the Department of Commerce to engage in

government-backed central planning efforts for Florida's manufacturing industry. Further, the bill establishes the Florida Manufacturers' Workforce Development Grant Program to disperse taxpayer resources for government-preferred manufacturing initiatives and establishes a taxpayer-funded marketing promotion effort for such efforts. The bill does not provide an appropriations cap, and the total cost of the new grant program is unknown. Lawmakers should not use the heavy hand of government to manipulate the market to benefit hand-selected business interests. The Florida Senate passed the bill, 35-0, on April 28, 2025. The Florida House did not take it up.

SB 602

NEW CRONY BUSINESS PROMOTION FEE

(CFGF OPPOSES)

This bill imposes a new business fee to fund a government marketing campaign. Specifically, the legislation requires the Department of Commerce to collect a \$100 business fee from every registrant seeking access to a new manufacturing grant program. While the

ABOUT THE FOUNDATION

Florida 2025 | Senate Vote Descriptions

registration is voluntary, there are no limiting principles in statute to keep it that way or to protect businesses from higher fees in the future. These fees are designed to fuel the Department of Commerce’s taxpayer-backed manufacturing scheme at the behest of a new government manufacturing czar. Such efforts elevate government-preferred business interests at the expense of hardworking taxpayers and run roughshod over the market’s ability to create greater economic opportunities. The Florida Senate passed the bill, 35-0, on April 28, 2025. The Florida House did not take it up.

SB 2500

FISCALLY RESPONSIBLE BUDGET

(CFGF SUPPORTS)

This bill authorizes roughly \$115 billion in appropriations for FY 2025-26, which is a 2.4 percent year-over-year decrease from the final FY 2024-25 budget. Specifically, the legislation includes an estimated \$830 million in further debt reduction, \$428 million in reduced taxes through various targeted sales tax holidays, and locks in the elimination of the business rent

tax, which is estimated to save \$1.5 billion on an annual basis. While the legislation incorporates yet another across-the-board pay raise for state employees, including another \$102 million in additional meritless pay increases for teachers, lawmakers showed fiscal restraint for a second straight year by keeping year-over-year spending growth nearly flat at a time of persistent inflation. The Florida House passed the bill, 103-2, on June 16, 2025. The Florida Senate passed it, 34-0, on the same day. Governor DeSantis further reduced the size of the budget by nearly \$570 million by utilizing the line-item veto.

SB 2502

STATE DOGE TASK FORCE

(CFGF SUPPORTS)

This bill serves as the implementing mechanism for the state appropriations package and also codifies state Department of Government Efficiency (DOGE) efforts to reduce wasteful spending. Specifically, the legislation authorizes the governor’s Office of Policy and Budget to conduct audits of local governments to identify and target taxpayer-funded Diversity,

Equity, and Inclusion (DEI) initiatives as well as government waste and duplicative programs. While the implementing bill incorporates nearly 130 policy and programmatic-related sections, the codification of state-level DOGE provisions is a significant step forward to protect families and taxpayers from profligate and harmful policies at the local level. The Florida House passed the bill, 87-18, on June 16, 2025. The Florida Senate passed it, 24-8, on the same day.

SB 7030

IMPROVING SCHOOL CHOICE PROGRAMS

(CFGF SUPPORTS)

This bill implements a series of changes to improve transparency and programmatic efficiencies within the state’s school choice program. Specifically, the legislation creates a new category for the state’s Family Empowerment Scholarship (FES) program to ensure that funding for education scholarships is not structurally blurred with traditional government school allocations. Further, the bill creates an educational enrollment stabilization mechanism to ensure that per-pupil allocations within the

FES correctly follow students to a school of their choice. These relatively modest changes provide additional transparency and programmatic integrity safeguards within Florida's already robust school choice ecosystem. The Florida House passed the bill, 80-27, on April 9, 2025. The Florida Senate passed it, 35-2, on the same day. The bill died in conference committee.

HB 701

EXPANDED HOUSING SUBSIDY SCHEME

(CFGF OPPOSES)

This bill expands a government housing program. Specifically, the legislation expands the State Housing Incentives Program (SHIP) to mandate that political subdivisions at the local and county levels provide rental assistance subsidies to mobile home owners equal to six months' worth of rental payments. Lawmakers should not further expand housing welfare and subsidy schemes—at the expense of hardworking Floridians—to cover the cost of other people's rental payments. Such policies drive up overall housing costs, impose new pressures on state and local government to increase spending baselines, and establish prospective moral hazards for taxpayers. The Florida House passed the bill, 115-0, on April 23, 2025. The Florida Senate did not take it up.

HB 999

SOUND MONEY PROTECTIONS

(CFGF SUPPORTS)

This bill expands avenues for citizens to protect themselves from a devalued dollar. Specifically, the legislation codifies in statutory language that gold and silver are legitimate legal tender in the state of Florida. It also exempts gold and silver from sales taxes, allows government entities to accept such tender electronically, and permits the use of gold and silver in the payment of debts. This bill helps ensure gold and silver can serve as an alternative competitive currency to the dollar, as well as provide taxpayers with some protection during a significant inflation or hyperinflationary event. The Florida House passed the bill, 113-0, on April 30, 2025. The Florida Senate passed it, 38-0, on April 29, 2025.

HB 1137

EXPANDED APPLIANCE DEREGULATION

(CFGF SUPPORTS)

This bill expands existing preemptions concerning appliances and energy source regulations. Specifically, the legislation builds off previous legislative efforts to preemptively prohibit boards, agencies, commissions, and other extensions of municipalities from enacting restrictions on the use of appliances powered by non-green energy sources. Additionally, the bill prohibits rural electric cooperatives from taking actions that restrict or prohibit the use of reliable energy sources. Hardworking Floridians deserve protection from progressive policies that drive up energy costs and degrade the efficacy of household appliances. The Florida House passed the bill, 109-5, on April 23, 2025. The Florida Senate passed it, 36-0, on April 28, 2025.

Florida 2025 | House Vote Descriptions

HB 1157

STRONG UNEMPLOYMENT INSURANCE REFORMS

(CFGF SUPPORTS)

This bill implements reforms in the state’s unemployment insurance (UI) program. Specifically, the legislation implements new conditions for terminating UI payments, including failure to engage in five weekly work search activities, failure to appear on three or more occasions for job interviews, and failure to return to work if called back by a previous employer due to temporary layoffs. Further, the bill expands the scope of the Department of Commerce’s activities for combating UI fraud by requiring eligibility verification for each claim. The bill helps move people out of unemployment and back into the workforce. Policy reforms that encourage reemployment lead to a healthier and more productive workforce, serving as a foundation for sustainable growth. The Florida House passed the bill, 83-31, on April 16, 2025. The Florida Senate did not take it up.

HB 1221

SIGNIFICANT LOCAL TAX RELIEF (CFGF SUPPORTS)

This bill imposes new limitations on local taxes. Specifically, the legislation provides for county commissioners and school boards to reduce or repeal surtaxes every four years following a two-thirds vote, imposes an eight-year limitation on certain food and beverage taxes, requires voter approval for such food taxes to be reinstated, and abolishes all county tourism development councils by December 31, 2025. While such councils can be reconstituted, this provision removes potential burdensome taxing authorities and requires county commissioners to affirmatively reinstate such bodies going forward. Estimates suggest that over \$6 billion in local surtaxes were imposed in FY2023-24, providing significant potential for tax relief at the local level. The Florida House passed the bill, 62-45, on April 25, 2025. The Florida Senate did not take it up.

HB 1225

COMMON SENSE EMPLOYMENT REFORMS (CFGF SUPPORTS)

This bill makes changes regarding youth employment and government contractors. Specifically, the legislation allows for 14 through 17-year-olds to work without restrictions if they have graduated or are in a home school program. Additionally, the bill prohibits government agencies from seeking to control or influence wage and benefit policies for contractors, as well as prohibits agencies from discriminating against contractors based on their wage and benefit policies. As hardworking families face persistent inflation and increased costs, providing new opportunities to supplement income is an important pro-growth and pro-family policy that will help offset the failed tax-and-spend policies of the government. The Florida House passed the bill, 78-30, on April 25, 2025. The Florida Senate did not take it up.

FLORIDA HOUSE VOTE DESCRIPTIONS

Florida 2025 | House Vote Descriptions

HB 1581

LOCAL TAXPAYER PROTECTION MEASURE (CFGF SUPPORTS)

This bill implements new requirements for municipalities. Specifically, the legislation requires counties and municipalities to hold a ballot referendum during a general election in a presidential election year for proposed salary increases, retirement benefit changes, and any other enhanced compensation for local elected officials. These referendums require a majority vote to increase taxpayer-funded benefits. This is yet another common-sense taxpayer protection measure for hardworking Floridians who ultimately bear the burden of profligate tax-and-spend policies. The Florida House passed the bill, 108-3, on April 23, 2025. The Florida Senate did not take it up.

HB 5017

DEBT REDUCTION PROGRAM (CFGF SUPPORTS)

This bill creates a new program to expedite the retirement of Florida’s tax-supported debt.

Specifically, the legislation establishes the Debt Reduction Program within the State Board of Administration to accelerate the retirement of bonds prior to maturity. Additionally, the bill directs \$250 million in annual transfers from the General Fund to the new debt reduction program, with unexpended funds reverting back at the end of the fiscal year. Estimates vary on the overall fiscal impact; however, the early retirement of taxpayer-financed bonds has the potential to provide significant savings for the state and hardworking Floridians. This is an encouraging development and shows that lawmakers take seriously their responsibility to protect families from the destructive impact of government debt. The Florida House passed the bill, 101-0, on June 16, 2025. The Florida Senate passed it, 34-0, on the same day.

HB 7031

SIGNIFICANT TAX REFORMS (CFGF SUPPORTS)

This bill implements significant tax changes. Specifically, the legislation repeals the 2 percent

business rent tax, repeals the aviation fuel tax, delays a looming tax on natural gas fuel, and implements a slew of sales tax holidays for school and disaster preparedness supplies. While the bill extends a crony tax handout for data center development and continues misguided government housing tax exemptions, estimates suggest the overall provisions within the bill will save over \$2 billion in FY2025-26 to provide significant tax relief and foster economic growth. The Florida House passed the bill, 93-7, on June 16, 2025. The Florida Senate passed it, 32-2, on the same day.

SB 480

EXPANDED HEALTH SHARING ASSOCIATIONS

(CFGF SUPPORTS)

This bill authorizes new health-sharing plans. Specifically, the legislation empowers non-profit agriculture entities to create health benefit plans that exist outside the onerous, costly, and low-quality Obamacare exchange plans. Sharing associations operate like

community-run risk pools where members help one another pay for health care needs, defraying the costs imposed by centrally planned government regulations and edicts. While these sharing plans are only available to nonprofit agriculture organizations' members, such policies are innovative market-oriented ways to circumvent the big government and big insurer-created disaster that is modern "health insurance." The Florida House passed the bill, 114-0, on April 29, 2025. The Florida Senate passed it, 32-4, on April 3, 2025.

SB 2500

FISCALLY RESPONSIBLE BUDGET (CFGF SUPPORTS)

This bill authorizes roughly \$115 billion in appropriations for FY 2025-26, which is a 2.4 percent year-over-year decrease from the final FY 2024-25 budget. Specifically, the legislation includes an estimated \$830 million in further debt reduction, \$428 million in reduced taxes through various targeted sales tax holidays, and locks in the elimination of the business rent tax,

which is estimated to save \$1.5 billion on an annual basis. While the legislation incorporates yet another across-the-board pay raise for state employees, including another \$102 million in additional meritless pay increases for teachers, lawmakers showed fiscal restraint for a second straight year by keeping year-over-year spending growth nearly flat at a time of persistent inflation. The Florida House passed the bill, 103-2, on June 16, 2025. The Florida Senate passed it, 34-0, on the same day. Governor DeSantis further reduced the size of the budget by nearly \$570 million by utilizing the line-item veto.

SB 2502

STATE DOGE TASK FORCE (CFGF SUPPORTS)

This bill serves as the implementing mechanism for the state appropriations package and also codifies state Department of Government Efficiency (DOGE) efforts to reduce wasteful spending. Specifically, the legislation authorizes the governor's Office of Policy and Budget

to conduct audits of local governments to identify and target taxpayer-funded Diversity, Equity, and Inclusion (DEI) initiatives as well as government waste and duplicative programs. While the implementing bill incorporates nearly 130 policy and programmatic-related sections, the codification of state-level DOGE provisions is a significant step forward to protect families and taxpayers from profligate and harmful policies at the local level. The Florida House passed the bill, 87-18, on June 16, 2025. The Florida Senate passed it, 24-8, on the same day.

SB 7030

IMPROVING SCHOOL CHOICE PROGRAMS (CFGF SUPPORTS)

This bill implements a series of changes to improve transparency and programmatic efficiencies within the state's school choice program. Specifically, the legislation creates a new category for the state's Family Empowerment Scholarship (FES) program to ensure that funding for education scholarships is not structurally blurred with traditional

government school allocations. Further, the bill creates an educational enrollment stabilization mechanism to ensure that per-pupil allocations within the FES correctly follow students to a school of their choice. These relatively modest changes provide additional transparency and programmatic integrity safeguards within Florida’s already robust school choice ecosystem. The Florida House passed the bill, 80-27, on April 9, 2025. The Florida Senate passed it, 35-2, on the same day. The bill died in conference committee.
